Souvik De

Software Developer

Self Taught Software developer with 3+ years of experience.

✉ souvikde.ns@gmail.com 📱 09073302976 📍 kolkata, India github.com/Souvikns

EDUCATION

BE CSE
Chandigarh University

06/2022 - Present *Chandigarh/Punjab*

Courses
- CSE

DPS Megacity
School

04/2006 - 04/2016 *Kolkata*

WORK EXPERIENCE

Intern
AsyncApi

06/2021 - Present
Open source.
Achievements/Tasks
- Building a CLI tool for Asyncapi which will merge all the CLI's from all other different tools.
- I am currently working under mentors and mostly fixing bugs or delivering small features.
- https://github.com/asyncapi/cli.

SKILLS

nodejs   React   mongodb   Postgres   CI/CD

Tailwind   Nextjs   REST   Graphql

PERSONAL PROJECTS

Notion Board (04/2021 - 04/2021)
- With the release of notion API I build a GitHub action that syncs issue in notion board view .
- GitHub Action, Typescript.
- https://github.com/Souvikns/Notion-Board .

Ink-Router-CLI (05/2021 - 06/2021)
- Ink-router-cli is a cli parser tool that built for inkjs. Taking inspiration from famous routing library for react, ink-router-dom. What it does is helps react routing logic similar to react in ink js.
- inkjs, typescript, react.
- https://github.com/Souvikns/ink-router-cli .

Klifu (06/2021 - Present)
- Klifu is an turn-based pokemon game, taking inspiration from pokemon go and pokemon red. First time making a game, just a passion project to get my hands dirty with game dev.
- API, NodeJS, typescript, InkJS, React.
- https://github.com/klifu .

CERTIFICATES

Programming with Python (02/2020 - 05/2020)
https://drive.google.com/file/d/164ywy8e9SVoIGJeFe3MYDakmgWL7o8by/view?usp=sharing

Web development Bootcamp (10/2020 - 12/2020)
https://drive.google.com/file/d/1nkvTjPbMquyYo_wBFqzfv_cFdK7RLdlE/view
